(GERANCE LIBRE)

HOTEL - RESTAURANT - PLAGES

L'OURSIN

Byblos-Jbeil 4/12/2006

M/S Conapro S.A.L.  
Tripoli - Lebanon

Dear Sirs,

We would like to express our thanks and gratitude to your company and to your partners M/S Seacor.

Our thanks to your company for choosing Hotel Byblos-Sur-Mer for the accommodation of all the foreign staff, as your offices address and most of the meals to the Lebanese and the foreign staff since October 2006.

We sincerely reiterate our thanks for your support which gave us a considerable financial push to overcome the huge loss we had during the July 2006 war in Lebanon.

We do hope that you were satisfied from our services, quality and performance.

Also, we seize this occasion to express our thanks to the USAid program, to your partners M/S Seacor for their choice of BYBLOS and their awareness of its importance. We have seen, since the oil spilled, many tentative of cleaning the coast between Byblos and Anfeh done by several international organizations, but we did not have the result we obtained today from the professional Seacor seniors and staff.

Meanwhile, we are afraid that if the oil remains in the plastic bags on the beaches for the next two months, without recycling, all the efforts done by M/S Seacor will be unfortunately harmful for Byblos instead of useful.

Cleaning the coast, of Byblos specially its historical sites and its tourist establishments, beaches and restaurants, is very important to regain local and international reputation and confidence.

We also appreciate the policy of hiring local fishermen and labors, etc... which helped them to compensate their big loss during this last war. We, as citizens of Byblos, are glad for feeling the excellent human relation that happened spontaneously between both Lebanese and Americans.

We hope that your actual experience with hotel Byblos-Sur-Mer was satisfactory and unforgettable. We will be more than happy to keep contact with you, as true friends and welcomed guests in a peaceful and clean Byblos in Lebanon.

Sincerely yours,

  
Melhem Hage (Milo)  
Managing Director
